SEAMLESS CONNECTIVITY AND CLOUD SOLUTION INFRASTRUCTURE

Convergenze offers **voice + data bundles locally, regionally, and nationally**, following General Authorization from the Ministry of Economic Development (MISE).

- **Since 2014**, authorized for electronic communication networks across Italy
- **In August 2021**, completed the interregional circuit, adding nodes in Buonabitacolo, Lagonegro, Sapri, and Maratea. Cloud services are also managed in the Company's data centers
- **By March 2025**, built over 12,000 km proprietary FTTH network, with over 100 radio links

TLC – FTTH NETWORK

STRONG GROWTH IN A SECTOR INCREASING ITS COVERAGE RATE

Convergenze achieved a robust CAGR of 27.1% (2019–1Q2025) in proprietary FTTH network, reflecting consistent growth in fiber infrastructure development.

FTTH Coverage Rate: Homes passed as a proportion of total households

ENTRY IN THE MOBILE TLC MARKET

INTEGRATED TELECOM: MOBILE, SUSTAINABLE, AND SMART

Convergenze launched “Simon”, its mobile service as a Mobile Virtual Network Operator (MVNO), in partnership with national telco Vianova S.p.A..

This move supports the company’s diversification and innovation strategy.

- Operates on the Fastweb + Vodafone network, with 5G and VoLTE for top-tier performance
- Rechargeable plans available for individuals and businesses
- Physical SIM and eSIM options, reducing environmental impact

Simon enhances Convergenze’s positioning as an integrated and sustainable technology operator, expanding its presence in the telecommunications sector.

EMPOWERING THROUGH SUSTAINABLE ENERGY AND ELECTRIC MOBILITY

Convergenze promotes **electric mobility** through its **patented EVO network**, featuring 36 EVO charging stations and 3 EVO Hospitality stations across Naples, Salerno, Avellino, Siena, and Florence.

- **Since 2015**, **Convergenze** has offered energy and natural gas services through an independent business unit
- **Since 2022**, part of the energy supplied came from renewable sources

internet - phone - TV - energie

- A nationwide supplier of electricity and natural gas, **Convergenze** has set up a network of charging stations and points called **EVO (Electric Vehicles Only)**, for which it has obtained a patent for an industrial invention, in support of electric mobility
- In addition to the **EVO Network, EVO Stations and EVO Wall Boxes** have already been installed in:

MEDIA & CONTENT DELIVERY NETWORK

BU MEDIA&CONTENT CONTINUE TO STRENGTH ITS EXPERTISE

In response to the rapid digital revolution and the increasing **convergence of entertainment, media, telecommunications, and Internet services**, **Convergenze** has launched a new Business Unit “Media & Content Delivery” to enhance its offerings and improve customer experiences.

- **Set-top box development:** designed to deliver the best possible online video content experience via ultra-fast connectivity
- **Integrated service bundles:** offering access to exclusive platforms and services at discounted rates, all in a single, simplified invoice
- **Advanced payment systems:** providing seamless and innovative methods for easier transactions

GROWTH DUE TO: M&A AND CONSOLIDATION

M&A

Possibility of growing through **M&A** by acquiring other TLC players with a complementary geographical location.

NETWORK EXPANSION AND CONSOLIDATION

Convergenze aims at being recognized as a national operator by expanding its presence throughout Italy.

DIVERSIFICATION OF SUPPLY

Convergenze is diversifying its product portfolio with the **introduction of the BU Media & Content Delivery Network**, offering new value-added services such as cloud, datacenter as a service, and virtualization. The company will also showcase innovations like antivirus solutions and its cybersecurity division.

VERTICALLY AND HORIZONTALLY INTEGRATED OPERATOR

PROPRIETARY FIBRE OPTICS AND WIFI

Extension of the proprietary fiber-optic network (FTTH) in municipalities where the company has reached a 'critical mass' of customers served by wireless technology.

CROSS SELLING AND INCREASING ACTIVE SERVICES

Increase in the number of **Energy customers**, taking advantage of the cross-selling opportunities between the **TLC** and **Energy** BUs, through e-commerce portals, as well as targeted marketing actions. Further cross-selling possibilities will be possible thank to the opening of the new **BU Media & Content Delivery Network**.

IOT AND MOBILE VIRTUAL OPERATOR

Convergenze is set to capitalize on **IoT sector opportunities**, particularly with the **LoRaWAN project's** shift to production technology. The Company will offer its proprietary network to national and international providers, acknowledging the crucial role of a fiber optic backbone for future 5G implementation. The Company has also launched its own **Mobile Virtual Network Operator** to integrate the **TLC** portfolio.

CONVERGENZE STRENGTHENS ITS TELECOM PORTFOLIO WITH MVNO LAUNCH

On February 5, 2025 – **Convergenze** announced its entry into the mobile telecommunications market as a **Mobile Virtual Network Operator (MVNO)**. This move is in partnership with Vianova S.p.A., reinforcing Convergenze's strategy of diversification and innovation.

Thanks to this strategic collaboration with Vianova, Convergenze will operate on the Vodafone network, ensuring access to cutting-edge technology such as 5G and VoLTE (Voice over LTE), which provides high-definition voice calls.

In line with the company's strong commitment to sustainability, the new mobile offering will be available with both physical SIM cards and eSIM technology.

With the introduction of mobile services, **Convergenze further diversifies and strengthens its telecom portfolio**, positioning itself as an integrated and sustainable technology operator.

ESTABLISHMENT OF A COMPANY IN ALBANIA TO SEEK STRATEGIC EXPANSION

On April 19, 2024 - **Convergenze** has approved the establishment of a limited liability company under Albanian law. This operation has in its geographical expansion in **Albania** its strategic reasoning; **a market still small in size but with strong growth prospects** where **Convergenze** will soon realize the opening of a new Point of Presence.

In this context, **Convergenze** will start offering the **service only on a wholesale basis to operators interconnected to ANIX** (the internet interchange point of the **Academic Network of Albania**).

The transaction involves total formation costs of about € 2,000 to € 3,000 and a share capital endowment of about € 2,000.

On October 21, 2024 the new owned subsidiary under Albanian law, called Convergenze Sh.p.k., has become fully operational.
